

The Potato Story

This is intended to be a pencil and paper activity.

Say which of these seeds in a pot of soil will develop into healthy plants. Try to explain your reasons.

Activity sheet 1: From a seed to a healthy plant (Answer Sheet)

Water but no light

No. (The plant will be unable to Photosynthesize / create food for itself.)

No water and no light

No. (As above and also the plant will not grow without water)

Light but no water

No.

Light and water

Yes.
